

1. Record Nr.	UNINA9910457262603321
Autore	Hasselmo Michael E
Titolo	How we remember [[electronic resource]] : brain mechanisms of episodic memory // Michael E. Hasselmo
Pubbl/distr/stampa	Cambridge, Mass., : MIT Press, c2012
ISBN	1-283-30273-X 9786613302731 0-262-29823-6
Descrizione fisica	1 online resource (xii, 366 p., [4] p. of plates) : ill. (some col.)
Disciplina	612.8/2
Soggetti	Memory - Physiological aspects Recollection (Psychology) - Physiological aspects Brain - Physiology Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Behavioral dynamics of episodic memory -- Neural dynamics of episodic memory -- Coding of space and time for episodic memory -- Encoding and retrieval of episodic trajectories -- Linking events and episodes -- Drug effects on the dynamics of encoding and retrieval -- Dynamics of memory guided behavior.
Sommario/riassunto	Episodic memory proves essential for daily function, allowing us to remember where we parked the car, what time we walked the dog, or what a friend said earlier. In this book, Hasselmo presents a new model describing the brain mechanisms for encoding and remembering an episode as a spatiotemporal trajectory.
