Summary; Note; References; Nigerian Pidgin English in Old Calabar in the Eighteenth and Nineteenth Centuries; 1. The Diary of Antera Duke (DAD); 2. Other Eighteenth Century Efiks 3. Data from the Nineteenth Century

Sommario/riassunto

More than any other area of the grammar, tense-mood-aspect (TMA) has provided evidence to fuel the ongoing debates about creole genesis and about the relevance of pidgin and creole phenomena to language theory more generally. This volume advances the debate in two ways. First, it makes available in print for the first time and in its original form William Labov's *On the Adequacy of Natural Languages: I. "The Development of Tense"*. Second, the volume features detailed analyses of the TMA systems of seven diverse pidgins and creoles, which vary in terms of their lexifying (superstrate) la
