About the portfolio contributorsIndex

Sommario/riassunto	The portfolio is the single most important part of every architectural student's education. This book proides a complete guide to preparing, compiling and presenting this crucial element of the architecture course.The experienced author team gives practical advice for the creation of the portfolio covering issues of size, storage, layout and order. They go on to guide the student through the various forms a portfolio can take: the Electronic Portfolio, the Academic Portfolio and the Professional Portfolio suggesting different approaches and diffe
