Sommario/riassunto	This book shows how dying is a management problem for hospitals, occupying space but few billable encounters and of little interest to medical practice or quality control. An anthropologist and bioethicist with two decades of professional nursing experience, Helen Chapple goes beyond current work on hospital care to present fine-grained accounts of the clinicians, patients, and families who navigate this uncharted, untidy, and unpredictable territory between the highly choreographed project of rescue and the clinical culmination of death.

Sommario/riassunto	In this invaluable and detailed presentation of the leading creative figures in a richly innovative and dynamic period of Czech theatre, Professor Jarka M. Burian provides us with insightful portraits of the directors K. H. Hilar, E. F. Burian, Alfred Radok, and Otomar Krejca: of the famous Voskovec and Werich comedic duo; of the scenographer Josef Svoboda; and of the playwright, now President of the Czech Republic, Vaclav Havel.
