and the Priscillianist Controversy; Christianizing the Syrian Countryside:
An Archaeological and Architectural Approach

Sommario/riassunto

Recent publications on urbanism and the rural environment in Late Antiquity, most of which explore a single region or narrow chronological niche, have emphasized either textual or archeological evidence. None has attempted the more ambitious task of bringing together the full range of such evidence within a multiregional perspective and around common themes. *Urban Centers and Rural Contexts* seeks to redress this omission. While ancient literature and the physical remains of cities attest to the power that urban values held over the lives of their inhabitants, the rural areas in which th
