Identity and National Interests: The United States as the Subject of the Cuban Missile Crisis; 7. National Interests and Common Sense; Notes; References; Index
Sommario/riassunto	Not simply an "event" or merely an "incident," the 1962 standoff between the U. S. and the Soviet Union over missiles in Cuba was a crisis, which subsequently has achieved almost mythic significance in the annals of United States foreign policy. Here, Weldes analyzes the so-called Cuban missile crisis as a means to rethink the idea of national interest, a notion central to both the study and practice of international relations.
