## Sommario/riassunto

This volume contains a selection of refereed and revised papers,  
originally presented at the 30th Linguistic Symposium on Romance  
Languages, representing the areas of syntax, semantics, their  
interfaces, and second language acquisition. The topics addressed  
include movement (both wh- and head-movement), control, issues of  
second language acquisition related to the Determiner Phrase, the  
effect of word order and syntactic simplification in second language  
acquisition, adverbials, syntactic constraints on access to lexical  
structure, a semantic characterization of the subjunctive in Spanish,  
and
