Sommario/riassunto	Declaring War Against Schooling documents 100 years of educational wars between Visionary learning leaders and Traditional school people. Ironically, to win the existing war, both opposing groups must unify to overthrow the control of education by politicians. The script cites the eras when education was in the hands of flexible educators with support, not opposition, from many politicians. Declaring War Against Schooling calls for ACTION NOW by visionary critics, educators, parents, and students. The goal is optional learning paths, not mandated schooling systems.
