Sommario/riassunto	"It's the economy, stupid," as Democratic strategist James Carville would say. After many years of study, Ray C. Fair has found that the state of the economy has a dominant influence on national elections. Just in time for the 2012 presidential election, this new edition of his classic text, Predicting Presidential Elections and Other Things, provides us with a look into the likely future of our nation's political landscape-but Fair doesn't stop there.Fair puts other national issues under the microscope as well-including congressional elections, Federal Reserve behavior
