

1. Record Nr.	UNINA9910457662703321
Autore	Ligatchev Valeri
Titolo	Nano- and micro-crystalline diamond films and powders [[electronic resource] /] / Valeri Ligatchev
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2009
ISBN	1-61470-334-5
Descrizione fisica	1 online resource (102 p.)
Disciplina	620.1/98
Soggetti	Diamond thin films Nanodiamonds Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [75]-84) and index.
Nota di contenuto	Conventional methods of films deposition and powders synthesis -- Effects of deposition techniques and regimes on morphology of diamond films -- Morphological features of synthetic diamond nano-powders -- Morphology and feature of electron spectrums of crystalline diamond films and powders with different grain sizes and shapes -- Fundamental and 'intra-band' optical absorption of diamond films and powders -- Effect of micro- and nano-sized morphology on DC and AC electrical properties of diamond films and powders -- Semi-empirical simulations approaches and results.
