Miami-based Cuban diaspora has had extraordinary success in putting its case high on the US political agenda and in capturing world media attention, but in the process the multiplicity of experiences within the diaspora has been overshadowed. This book gives voice to diasporic Cubans living in Spain, the former colonial ruler of Cuba. By focusing on their lived experiences of displace

Bringing Buddhism to Tibet is a landmark study of the *Dba' bzhed*, a text recounting the introduction of Buddhism to Tibet. The narrative of Buddhism's arrival in Tibet is known from a number of versions, but the *Dba' bzhed*—preserved in a single manuscript—is the oldest complete copy. Although the *Dba' bzhed* stands at the head of a long tradition of history writing in the Tibetan language, and has been known for more than two decades, this book provides a full transcription of the Tibetan for the first time, together with a new translation. The book also introduces Tibetan history and the *Dba' bzhed* with several introductory chapters on various aspects of the text by experienced scholars in the field of Tibetan philology. These detailed studies provide analysis of the text's narrative context, its position within traditional and current historiography, and the organisation and structure of the text itself and its antecedents. Bringing Buddhism to Tibet is essential reading for anyone interested in Tibetan history and kingship, the nature of Tibetan historical narrative or the traditions of text transmission and codicology. The book will also be of general interest to students of Buddhism and the spread of Buddhism across Asia.

Where the transliteration of Tibetan in the footnotes and appendices to this volume does not follow the standard modified Wylie system, it accords with the more rigorous codicological system adopted by editors of the Old Tibetan Documents Online portal (see under “Editorial Policy” at <https://otdo.aa-ken.jp/>). For instance, the reverse gi gu is transliterated with the upper case “I” and stacked letters that are not found in the Classical Tibetan orthography of indigenous words are transliterated with the “+” sign (e. g., dhi with a subscribed ha is d+hi), the sign marking the beginning of a folio, paragraph, etc. is transliterated with \$ and the anusvra is transliterated with M (capital letter).
