Klein -- The transition from slavery to freedom through manumission: a life-cycle approach applied to the United States and Guadeloupe / Frank D. Lewis -- Prices of African slaves newly arrived in the Americas, 1673-1865: new evidence on long-run trends and regional differentials / Davis Eltis, David Richardson -- American slave markets during the 1850s: slave price rises in the United States, Cuba, and Brazil in comparative perspective / Laird W.

Bergad -- The relative efficiency of free and slave agriculture in the antebellum United States: a stochastic production frontier approach / Elizabeth B. Field-Hendrey, Lee A. Craig -- Wealth accumulation in Virginia and in the century before the Civil War / James R. Irwin -- The poor: slaves in early America / Philip D. Morgan -- The north-south wage gap before and after the civil war / Robert A. Margo.

Sommario/riassunto

Slavery in the Development of the Americas brings together work from leading historians and economic historians of slavery. The essays cover various aspects of slavery and the role of slavery in the development of the southern United States, Brazil, Cuba, the French and Dutch Caribbean, and elsewhere in the Americas. Some essays explore the emergence of the slave system, and others provide important insights about the operation of specific slave economics. There are reviews of slave markets and prices, and discussions of the efficiency and distributional aspects of slavery. Perspectives are brought on the transition from slavery and subsequent adjustments, and the volume contains the work of prominent scholars, many of whom have been pioneers in the study of slavery in the Americas.
