From international governance to International Internet Law; Summary; Bibliography; Index
Sommario/riassunto	This book discusses the international legal issues underlying Internet Governance and proposes an international solution to its problems. The book encompasses a wide spectrum of current debate surrounding the governance of the internet and focuses on the areas and issues which urgently require attention from the international community in order to sustain the proper functioning of the global network that forms the foundation of our information fuelled society. Among the topics discussed are international copyright protection, state responsibility for cyber-attacks (cyberterrorism), and inte
