Sommario/riassunto

A neglected topic in the research on yoga and meditation traditions, the extraordinary capacities called yoga powers are at the core of the religious imagination in the history of religions in South Asia. Yoga powers explained the divine, the highest gods were thought of as great yogins, and since major religious traditions considered their attainment as an inevitable part of the salvific process the textual traditions had to provide rational analyses of the powers. The essays of the book provide a number of new insights in the yoga powers and their history, position and function in the Hindu, Buddhist and Jain traditions, in classical Yoga, Haha Yoga, Tantra and aiva textual traditions, in South Asian medieval and modern hagogaphies, and in some contemporary yoga traditions.
