Sommario/riassunto

<P style=""MARGIN: 0in 0in 0pt"" class=MsoNormal>Essential reading for anyone those involved in the psychology of children, this work details how Margaret Lowenfeld developed new forms of communication with children-primarily through the use of play and specifically through sand play-allowing psychotherapists to locate and address behavioral problems resulting from trauma, especially as from the result of war.

Nota di contenuto	Constructivism -- Structure -- Agency -- Identities -- Interests -- Conclusions.
Sommario/riassunto	Constructivism's basic premise - that individuals and groups are shaped by their world but can also change it - may seem intuitively true. This book lays out concepts and tools for those seeking to apply the constructivist approach in research. It is intended for those trying to sort out appropriate methods for empirical research.
