| Sommario/riassunto      | Provides an overview of the practice of Islamic finance and the historical roots that define its modes of operation. The focus of the book is analytical and forward-looking. It shows that Islamic finance                                                                                                                                                                                                          |

exists mainly as a form of rent-seeking legal-arbitrage.
