Sommario/riassunto

This volume, a detailed empirical study of the creole English spoken in the Bahamian capital, Nassau, contributes to our understanding of both urban creoles and tense-aspect marking in creoles. The first part traces the development of a creole in the Bahamas via socio-demographic data and outlines its current status and functions vis-a-vis the standard in politics, the media, and education. The linguistic chapters combine typological and variationist methods to describe exhaustively a comprehensive grammatical subsystem, past temporal reference, offering a discourse-based approach to such
