Sommario/riassunto	How does the toxicity associated with particular parenting styles affect

attachment? How do the contaminated views of themselves that children of poisonous parents have affect their relationships into adulthood? Like physicians, clinicians do not want to amputate, but they sometimes find it necessary in order to preserve the health of the larger system. *Poisonous Parenting* shows clinicians how to recognize the effects of poisonous parenting in adult children and how to heal the scars created by parents' toxic attitudes and behaviors.
