Bush to Barack Obama -- EPILOGUE The Irony of American Liberal Internationalism -- APPENDIX Notes on the Study of the International Origins of Democracy -- Notes -- Bibliography -- Index

Sommario/riassunto

America's Mission argues that the global strength and prestige of democracy today are due in large part to America's impact on international affairs. Tony Smith documents the extraordinary history of how American foreign policy has been used to try to promote democracy worldwide, an effort that enjoyed its greatest triumphs in the occupations of Japan and Germany but suffered huge setbacks in Latin America, Vietnam, and elsewhere. With new chapters and a new introduction and epilogue, this expanded edition also traces U.S. attempts to spread democracy more recently, under presidents Clinton, Bush, and Obama, and assesses America's role in the Arab Spring.
