Bush conclusion Comparing the Modern Presidents' Environmental Policies Notes; Index
Sommario/riassunto	Presidents and their administrations since the 1960's have become increasingly active in environmental politics, despite their touted lack

of expertise and their apparent frequent discomfort with the issue. In *White House Politics and the Environment: Franklin D. Roosevelt to George W. Bush*, Byron W. Daynes and Glen Sussman study the multitude of resources presidents can use in their attempts to set the public agenda. They also provide a framework for considering the environmental direction and impact of U.S. presidents during the last seven decades, permitting an asse...
