Sommario/riassunto

Understanding Behavior in the Context of Time reviews the research on temporal orientation and brings together the disparate social behaviors influenced by time perspective. Organized into four sections, each chapter includes theory, research, applications, and directions for future research. Some chapters outline novel theoretical approaches that help to expand and/or integrate existing theories. The second part focuses on individual level processes and reviews the conceptualization, measurement, and lifespan development of time orientation; the outcomes associated with various time or

Sommario/riassunto	"Connexions investigates the ways in which race and sex intersect, overlap, and inform each other in United States history. An expert team of editors curates thought-provoking articles that explore how to view the American past through the lens of race and sexuality studies. Chapters range from the prerevolutionary era to today to grapple with an array of captivating issues: how descriptions of bodies shaped colonial Americans' understandings of race and sex; same-sex sexual desire and violence within slavery; whiteness in gay and lesbian history; college women's agitation against heterosexual norms in the 1940's and 1950's; the ways society used sexualized bodies to sculpt ideas of race and racial beauty; how Mexican silent film icon Ramon Navarro masked his homosexuality with his racial identity; and sexual representation in mid-twentieth-century black print pop culture. The result is both an enlightening foray into ignored areas and an elucidation of new perspectives that challenge us to reevaluate what we 'know' of our own history. Contributors: Sharon Block, Susan K. Cahn, Stephanie M. H. Camp, J. B. Carter, Ernesto Chavez, Brian Connolly, Jim Downs, Marisa J. Fuentes, Leisa D. Meyer, Wanda S. Pillow, Marc Stein, and Deborah Gray White"--
