Sommario/riassunto	This volume explores the sources and manifestations of political violence in South and Southeast Asia and the myriad roles that it plays in everyday life and as part of historical narrative. It considers and critiques the manner in which political violence is understood and

constructed, and the common assumptions that prevail regarding the causes, victims and perpetrators of this violence. By focusing on the social and political context of these regions the volume presents a critical understanding of the nature of political violence and provides an alternative narrative to that found in mainst
