Sommario/riassunto

Psychiatric rehabilitation refers to community treatment of people with mental disorders. Community treatment has recently become far more widespread due to deinstitutionalization at government facilities. This book is an update of the first edition's discussion of types of mental disorders, including etiology, symptoms, course, and outcome, types of community treatment programs, case management strategies, and vocational and educational rehabilitation. Providing a comprehensive overview of this rapidly growing field, this book is suitable both as a textbook for undergraduate and graduate cour
