Sommario/riassunto	As China's political and economic influence in the world is rapidly increasing, it is essential to understand how China's domestic politics affects its foreign political and economic policy. This book offers an accessible, informative and up-to-date systemic analysis of the foreign

policy of China. Where mainstream literature on international relations usually suggests that China's foreign policy is primarily determined by external factors, such as the international system and external settings, this book demonstrates instead that domestic factors profoundly shape China's foreign policy fro
