

1. Record Nr.	UNINA9910458178203321
Titolo	Absolute generality [[electronic resource] /] / edited by Agustin Rayo and Gabriel Uzquiano
Pubbl/distr/stampa	Oxford, : Clarendon Press New York, : Oxford University Press, 2006
ISBN	1-280-75532-6 9786610755325 0-19-151534-5 1-4294-6008-3
Descrizione fisica	1 online resource (407 p.)
Altri autori (Persone)	RayoAgustin UzquianoGabriel
Disciplina	111/.2
Soggetti	Universals (Philosophy) Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; List of Contributors; 1. Introduction; 2. Relatively Unrestricted Quantification; 3. Context and Unrestricted Quantification; 4. Against 'Absolutely Everything!'; 5. Something About Everything: Universal Quantification in the Universal Sense of Universal Quantification; 6. Sets, Properties, and Unrestricted Quantification; 7. There's a Rule for Everything; 8. The Problem of Absolute Universality; 9. Beyond Plurals; 10. All Things Indefinitely Extensible; 11. Unrestricted Unrestricted Quantification: The Cardinal Problem of Absolute Generality 12. Is it too much to Ask, to Ask for Everything?13. Absolute Identity and Absolute Generality; Index
Sommario/riassunto	The problem of absolute generality has attracted much attention in recent philosophy. Agustin Rayo and Gabriel Uzquiano have assembled a distinguished team of contributors to write new essays on the topic. They investigate the question of whether it is possible to attain absolute generality in thought and language and the ramifications of this question in the philosophy of logic and mathematics. - ;Is it

possible to quantify over absolutely all there is? Or must all of our quantifiers range over a less-than-all-inclusive domain? It has commonly been thought that the question of absolute genera
