Descrizione fisica	1 online resource (205 p.)
Collana	Studies in medical anthropology
Disciplina	362.109663
Soggetti	Medical anthropology - Senegal - Saint-Louis (Region) Medical policy - Senegal - Saint-Louis (Region) Public health - Senegal - Saint-Louis (Region) Medical care - Senegal - Saint-Louis (Region) Medical economics - Senegal - Saint-Louis (Region) Electronic books. Saint-Louis Region (Senegal) Social conditions Saint-Louis Region (Senegal) Economic conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 173-180) and index.
Nota di contenuto	Front matter -- Contents -- Acknowledgments -- 1. A Different African Health Story -- 2. A Brief History of Senegal -- 3. Urban and Rural Dilemmas -- 4. Global Health Reform in Saint Louis -- 5. Market-Based Medicine and Shantytown Politics in Pikine -- 6. Knowledge Encounters: Biomedicine, Islam, and Wolof Medicine -- 7. Gender, Social Hierarchy, and Health Practice -- 8. Domestic Disputes and Generational Struggles over Household Health -- 9. Encountering Development in Ganjool -- 10. Believe in God, but Plow Your Field -- Notes -- Glossary -- References -- Index -- About the author
Sommario/riassunto	In the wake of structural adjustment programs in the 1980's and health reforms in the 1990's, the majority of sub-Saharan African governments spend less than ten dollars per capita on health annually, and many Africans have limited access to basic medical care. Using a

community-level approach, anthropologist Ellen E. Foley analyzes the implementation of global health policies and how they become intertwined with existing social and political inequalities in Senegal. *Your Pocket Is What Cures You* examines qualitative shifts in health and healing spurred by these reforms, and analyzes the dilemmas they create for health professionals and patients alike. It also explores how cultural frameworks, particularly those stemming from Islam and Wolof ethnomedicine, are central to understanding how people manage vulnerability to ill health. While offering a critique of neoliberal health policies, *Your Pocket Is What Cures You* remains grounded in ethnography to highlight the struggles of men and women who are precariously balanced on twin precipices of crumbling health systems and economic decline. Their stories demonstrate what happens when market-based health reforms collide with material, political, and social realities in African societies.
