## Sommario/riassunto

Credit Risk Management will enable general bankers, staff, and credit analyst trainees to understand the basic information and principles underlying credit risk evaluation, and to use those underlying principles to undertake an analysis of non financial and financial risks when preparing a credit proposal. Since the best loans are the ones that do not present problems during the repayment phase, the authors also focus on elements relating to the proactive management of those loans during their inception. This book introduces: \*Credit analysis, approval and management proce

Sommario/riassunto	Recent events have focused attention on the perceived differences and tensions between the Muslim world and the modern West. As a major

strand of Western public discourse has it, Islam appears resistant to internal development and remains inherently pre-modern. However Muslim societies have experienced most of the same structural changes that have impacted upon all societies: massive urbanisation, mass education, dramatically increased communication, the emergence of new types of institutions and associations, some measure of political mobilisation, and major transformations of the economy.
