

1. Record Nr.	UNINA9910458273603321
Autore	Roark Brian
Titolo	Computational approaches to morphology and syntax [[electronic resource] /] / Brian Roark and Richard Sproat
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2007
ISBN	9786611164607 1-281-16460-7 0-19-153451-X 1-4356-1007-5
Descrizione fisica	1 online resource (337 p.)
Collana	Oxford surveys in syntax and morphology
Altri autori (Persone)	SproatRichard William
Disciplina	410.285
Soggetti	Computational linguistics Grammar, Comparative and general - Morphology - Data processing Grammar, Comparative and general - Syntax - Data processing Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [285]-305) and indexes.
Nota di contenuto	Contents; General preface; Preface; List of Figures; List of Tables; Abbreviations; 1. Introduction and Preliminaries; PART I. COMPUTATIONAL APPROACHES TO MORPHOLOGY; PART II. COMPUTATIONAL APPROACHES TO SYNTAX; References; Name Index; Language Index; Index
Sommario/riassunto	This book provides a critical and practical guide to computational techniques for handling morphological and syntactic phenomena, showing how these techniques have been used and modified in practice. - ;The book will appeal to scholars and advanced students of morphology, syntax, computational linguistics and natural language processing (NLP). It provides a critical and practical guide to computational techniques for handling morphological and syntactic phenomena, showing how these techniques have been used and modified in practice. The authors discuss the nature and uses of syntactic parsers
