

1. Record Nr.	UNINA9910458310603321
Autore	Senft Gunter <1952->
Titolo	Classificatory particles in Kilivila [[electronic resource] /] / Gunter Senft
Pubbl/distr/stampa	New York, : Oxford University Press, 1996
ISBN	1-280-52764-1 0-19-535783-3 1-4294-1550-9
Descrizione fisica	1 online resource (396 p.)
Collana	Oxford studies in anthropological linguistics
Disciplina	499/.12
Soggetti	Kiriwinian language - Particles Kiriwinian language Electronic books. Trobriand Islands (Papua New Guinea) Languages Grammar
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 355-369) and index.
Nota di contenuto	Ch. 1. Introduction -- Ch. 2. Classificatory Particles in Kilivila: Grammatical and Discourse Functions -- Ch. 3. The System of Classificatory Particles in Kilivila -- Ch. 4. On the Validity of Some of the Presented Results: Six Years Later - A Restudy -- Ch. 5. Excursus: Language, Culture, and Cognition? -- Ch. 6. Closing Remarks: Using Network Models to Describe Classifier Systems -- Appendix A Consultants: 1982/1983 Study -- Appendix B Number of CP Tokens Produced for Each CP Type by Text and Word Class for Consultants in Corpus of Kilivila Speech Data -- Appendix C Consultants: 1989 Restudy -- Appendix D Some Speculations on the Origin of Classifiers.
Sommario/riassunto	This study examines the system of classificatory particles - the divisions of the noun lexicon into distinct classes - in Kilivila, the Austronesian language of the Trobriant Islanders of Papua New Guinea. The author uses data gathered in field research.
