Grossbritannien
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Based on a two-year Economic and Social Research Council seminar series.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Seven. Complexity and community empowerment in regeneration, 2002-04 -- Eight. Refugee voices as evidence in policy and practice -- Nine. Challenging barriers to participation in qualitative research: involving disabled refugees -- Ten. Why religion matters -- Eleven. Action learning: a research approach that helped me to rediscover my integrity -- Appendix: Guidelines funded through the Economic and Social Research Council Seminar Series 'Eliciting the views of refugee

people seeking asylum'

One. Introduction -- Two. Refugees as researchers: experiences from the project 'Bridges and fences: paths to refugee integration in the Eu' -- Three. Limited exchanges: approaches to involving people who do not speak English in research and service development -- Four. Breaking the silence: participatory research processes about health with Somali refugee people seeking asylum -- Five. Home/lessness as an indicator of integration: interviewing refugees about the meaning of home and accommodation -- Six. The community leader, the politician and the policeman: a personal perspective.

Sommario/riassunto

This book is the first specifically to explore methodological issues relating to the involvement of refugees in both service evaluation and development and research more generally. It builds on a two-year seminar series funded by the ESRC and attended by members of a range of statutory and voluntary organisations, as well as academics and refugees themselves. The participants jointly drew up a set of good practice guidelines that are re-produced in the book for the first time.
