Nota di bibliografia	Includes bibliographical references (p. 223-237) and index.
Nota di contenuto	Unlawful combatants in American conflicts -- United States citizen enemy combatants -- Non-US citizens detained at Guantanamo Bay.
Sommario/riassunto	Today the United States is fighting a new type of non-nation state enemy, which does not behave according to historical doctrines or principles of war. Hardy examines the development of legal doctrine surrounding the management of the ""new"" enemy combatant, including the detention and prosecution of unlawful enemy combatants detained by the United States after September 11, 2001. She also reviews relevant case law addressing United States citizens detained as enemy combatants. This discussion additionally focuses on the rights and processes granted to those detained at Guantanamo Bay. Finall

Sommario/riassunto	In 2003, Canada earned distinction on the world stage for eradicating deficit spending and for its progressive stance evident in its support for gay marriage, moves to decriminalize possession of marijuana, and liberal immigration policies. However, despite it achievements, Canada faced many new and longstanding political challenges.Canada was not

immune to widespread turmoil and uncertainty rooted in war, disease, and the effects of globalization such as SARS, mad cow disease, and a large-scale blackout affecting the north-eastern United States and Ontario. The United States was becoming mired in a complex and prolonged war with Iraq, and a large contingent of Canada's armed forces remained in Afghanistan. Additional security measures were implemented to meet the threat of terrorism, while Maher Arar's accounts of torture endured in a Syrian jail became a symbol of public doubt about many of the new counter-terrorism initiatives. The Canadian Annual Review of Politics and Public Affairs 2003 is the latest instalment in an acclaimed series that offers informed commentary on important events, and thoughtfully considers their significance in local and international contexts.
