

1. Record Nr.	UNINA9910458608603321
Titolo	Governing the energy challenge : Canada and Germany in a multi-level regional and global context // Burkard Eberlein and G. Bruce Doern, editors
Pubbl/distr/stampa	Toronto, [Ontario] ; ; Buffalo, [New York] ; ; London, [England] : , : University of Toronto Press, , 2009 ©2009
ISBN	1-4426-9748-2
Descrizione fisica	1 online resource (449 p.)
Disciplina	333.790971
Soggetti	Energy policy - Canada Energy policy - Germany Energy industries - State supervision - Canada Energy industries - State supervision - Germany Energy industries - Environmental aspects - Government policy - Canada Energy industries - Environmental aspects - Government policy - Germany Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Frontmatter -- Contents -- Preface -- Abbreviations -- 1 German and Canadian Multi-Level Energy Regulatory Governance: Introduction, Context, and Analytical Framework / Eberlein, Burkard / Doern, G. Bruce -- 2 Mapping the Energy Challenges: Germany and Canada in Comparative Context / Doern, G. Bruce / Eberlein, Burkard -- PART ONE: Industry Transformations and Comparative Multi-Level Regulatory Governance -- 3 Electricity Restructuring in the Provinces: Pricing, Politics, Starting Points, and Neighbours / Dewees, Donald N. -- 4 The Governance of Energy in North America: The United States and Its Continental Periphery / Clarkson, Stephen -- 5 Nuclear Energy in Germany and Canada: Divergent Regulatory Policy and Governance Paths / Mez, Lutz / Doern, G. Bruce -- 6 National or Supranational

Electricity Governance - NAFTA and the EU: Electricity Market Reforms in Canada and Germany / Froschauer, Karl -- 7 The EU Single Energy Market and Multi-Level Interaction / Cameron, Peter D. -- PART TWO: Domestic Patterns of Governance: Canada and Germany -- 8 Multi-level Energy Regulatory Governance in the Canadian Federation: Institutions, Regimes, and Coordination / Gattinger, Monica -- 9 An Integrated Canadian Electricity Market? The Potential for Further Integration / Pineau, Pierre-Olivier -- 10 The Transformation of German Energy Regulation: Struggling with Policy Legacy / Theobald, Christian -- 11 Talking without Walking: Canada's Ineffective Climate Effort / Rivers, Nic / Jaccard, Mark -- 12 Still Walking the Talk? German Climate Change Policy and Performance / Weidner, Helmut / Eberlein, Burkard -- 13 EU Emission Trading and National Allocations Plans 2005-2007: The Case of Germany / Ziesing, Hans-Joachim -- 14 Renewables in Electricity Generation: Germany as Pioneer? / Mez, Lutz -- 15 Conclusions: Complexity, Coordination, and Capacity in German and Canadian Energy Regulatory Governance / Eberlein, Burkard / Doern, G. Bruce -- Glossary -- Contributors

Sommario/riassunto

As energy prices continue to soar, there is an equally growing interest in how better to manage and regulate energy sources and their production. *Governing the Energy Challenge* is a comparative study between Canada and Germany that features essays by leading energy and public policy specialists from both countries. It identifies numerous strategies to produce more efficient and sustainable energy by revealing the ways in which Germany, as a member of the European Union, is more advanced in dealing with multi-level governmental tensions and sustainability constraints than Canada has as a member of NAFTA. Paying particular attention to the relationship between environmental study, climate change issues, and economic market reforms, this volume analyses the influence that the energy sector and multi-level institutional arrangements have on energy governance. The contributors provide valuable information on the formation of energy policy, offering insights into the growing differences between countries who are members of NAFTA and the European Union.
