Sommario/riassunto	Much has been said about the re-emergence of China to its historical position of eminence in the world economy, yet little is understood about the kind of economic system China is evolving. What are the rules of the game of business in today's China, and how are they likely to change over the next decades? - ;Much has been said about the re-emergence of China to its historical position of eminence in the world economy, yet little is understood about the kind of economic system China is evolving.
