Sommario/riassunto

Fiduciary responsibilities and related court-imposed liabilities have forced investors to assess market conditions beyond gut level, resulting in the development of sophisticated decision-making tools. Roger Brown's use of historical real estate data enables him to develop tools for gauging the impact of circumstances on relative risk. His application of higher level statistical modeling to various aspects of real estate makes this book an essential partner in real estate research. Offering tools to enhance decision-making for consumers and researchers in market economies of any country intere

Sommario/riassunto	Long description: Die Studie beleuchtet die Einstellungen junger Muslim:innen zu lebensweltlichen und gesellschaftlichen Fragen, die

ehrenamtlich in den Gemeinden des DTB-Moscheeverbands arbeiten und die in Deutschland beheimatet sind. Von besonderem Interesse sind dabei die Begründungslogiken für ihre ethischen, spirituellen, intellektuellen und sozialen Positionierungen, was auch die eigenen religiösen Traditionen und Institutionen umfasst. Die Studie liefert wichtige Impulse für die Jugendarbeit islamischer Gemeinden in Deutschland, aber auch für Politik und Bildungsinstitutionen, eingebrannte Bilder des Islams und seiner Gemeinden in Deutschland einer Revision zu unterziehen.
