

1. Record Nr.	UNINA9910458770003321
Autore	Cunha Euclides da <1866-1909.>
Titolo	The Amazon [[electronic resource]] : land without history // Euclides da Cunha ; translated from the Portuguese by Ronald Sousa ; edited with introduction and notes by Lucia Sa
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2006
ISBN	0-19-993895-4 1-283-02057-2 9786613020574 0-19-977518-4
Descrizione fisica	1 online resource (125 p.)
Collana	Library of Latin America
Altri autori (Persone)	SaLucia SousaRonald W. <1943->
Disciplina	918
Soggetti	Electronic books. Amazon River Valley History Acre (Brazil) Description and travel Acre (Brazil) History Amazon River Valley Description and travel Purus River (Peru and Brazil) Description and travel
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Translated from the Portuguese.
Nota di bibliografia	Includes bibliographical references (p. [95]-96).
Nota di contenuto	Contents; Series Editors' General Introduction; Introduction; Translator's Note; General Impressions; Rivers in Abandon; This Accursed Climate; The Caucheros; Judas Ahasverus; ""Brazilians""; Transacreana; Glossary; Bibliography
Sommario/riassunto	Features eight essays by Euclides da Cunha, about his trip through the Amazonin 1905, written to describe the Brazilian hinterlands to the urban citizens.

2. Record Nr.	UNISA996465620403316
Titolo	Studies of Software Design [[electronic resource]] : ICSE'93 Workshop, Baltimore, Maryland, USA, May (17-18), 1993. Selected Papers // edited by David Alex Lamb
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 1996
ISBN	3-540-68434-4
Edizione	[1st ed. 1996.]
Descrizione fisica	1 online resource (VII, 193 p.)
Collana	Lecture Notes in Computer Science, , 0302-9743 ; ; 1078
Disciplina	005.1/2
Soggetti	Software engineering Architecture, Computer Programming languages (Electronic computers) Information technology Business—Data processing Software Engineering/Programming and Operating Systems Computer System Implementation Software Engineering Programming Languages, Compilers, Interpreters IT in Business
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Introduction: Studies of software design -- Many faces of software architecture -- Procedure calls are the assembly language of software interconnection: Connectors deserve first-class status -- Software structure characterization using connectivity -- Regularities in software systems -- Formal approaches to software architecture -- Difficulties with object-oriented frameworks -- Using a metasystem approach to support and study the design process -- Constructing software design theories and models -- Method integration and support for distributed software development: An overview -- Program restructuring via design-level manipulation -- Hierarchical modular diagrams: An approach to describe architectural designs -- Structured and formal methods: An investigative framework -- An exploration of object-

oriented methodologies for system analysis and design.

Sommario/riassunto

This book contains a refereed collection of thoroughly revised full papers based on the contributions accepted for presentation at the International Workshop on Studies of Software Design, held in conjunction with the 1993 International Conference on Software Engineering, ICSE'93, in Baltimore, Maryland, in May 1993. The emphasis of the 13 papers included is on methods for studying, analyzing, and comparing designs and design methods; the topical focus is primarily on the software architecture level of design and on techniques suitable for dealing with large software systems. The book is organized in sections on architectures, tools, and design methods and opens with a detailed introduction by the volume editor.
