military force in humanitarian and development operations; 12 War, what it is good for ...; Index

Sommario/riassunto

This book investigates the use and utility of military force in modern war. After the Cold War, Western armed forces have increasingly been called upon to intervene in internal conflicts in the former Third World. These forces have been called upon to carry out missions that they traditionally have not been trained and equipped for, in environments that they often have not been prepared for. A number of these 'new' types of operations in allegedly 'new' wars stand out, such as peace enforcement, state-building, counter-insurgency, humanitarian aid, and not the least counter-ter
