| Sommario/riassunto    | This new book addresses three key issues: What has changed in Chinese civil-military relations? What can account for changes? And what are the implications for Chinese security policy and strategic behaviour? It tackles these questions by sharply assessing civil-military dynamics in elite politics; such dynamics in national security and arms control policy; relations between commanders and political commissars; relations between the PLA and society; civil-military dynamics regarding defence economics and logistics; and such dynamics regarding dual-use technologies and defence   |

| Sommario/riassunto      | This much-needed book describes the digital home networking environment, its techniques, and the challenges around its service architecture. It provides a broad introduction to state-of-the-art digital home standards and protocols, as well as in-depth coverage of service architectures for entertainment and domotic services involving digital home resources. Topics include networking, remote access, security, interoperability, scalability, and quality of service. Notably, the book describes the generic architecture that was proposed and developed in the context of the EUREKA/Celtic research proj |
