	Descrizione fisica	1 online resource (454 p.)
	Collana	TEEB - The Economics of Ecosystems and Biodiversity
	Altri autori (Persone)	KumarPushpam
	Disciplina	333.95
	Soggetti	Ecology - Economic aspects Ecosystem services Biodiversity - Economic aspects Environmental economics Electronic books.
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	"An Output of TEEB: The Economics of Ecosystems and Biodiversity."
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Integrating the ecological and economic dimensions in biodiversity and ecosystem service valuation -- Biodiversity, ecosystems and ecosystem services -- Measuring biophysical quantities and the use of indicators -- The socio-cultural context of ecosystem and biodiversity valuation -- The economics of valuing ecosystem services and biodiversity --

Discounting, ethics, and options for maintaining biodiversity and ecosystem integrity -- Lessons learned and linkages with national policies.

Sommario/riassunto

Human well-being relies critically on ecosystem services provided by nature. Examples include water and air quality regulation, nutrient cycling and decomposition, plant pollination and flood control, all of which are dependent on biodiversity. They are predominantly public goods with limited or no markets and do not command any price in the conventional economic system, so their loss is often not detected and continues unaddressed and unabated. This in turn not only impacts human well-being, but also seriously undermines the sustainability of the economic system. It is against this background
