Sommario/riassunto	Since the end of the 1970's and the beginning of 1980's, with the political and economic system changes in the world, some enterprises being operated on the basis of market mechanism have emerged in the economy which once implemented the planning resource allocation (such as former Soviet Union, countries in eastern Europe and Mainland China, countries in Southeast Asia such as Vietnam). As the operation mode which complies with the market mechanism is adopted early in terms of the property right and operation mechanism, these enterprises grow rapidly under the loose regulation of the government
