Sommario/riassunto	The global financial crisis that reached its peak in late 2008 has brought the importance of financial services regulation and supervision into the spotlight. This book examines the governance of financial services in the EU, asking who governs financial services in the EU, how and why, and explaining where the power lies in the policy-making process. It covers the main financial services: banking, securities, payments systems, clearing and settlement. Addressing the politics and public policy aspects of financial market integration, regulation and supervision in the European Union,
