Sommario/riassunto	This book analyses how the economic crisis in the 1970s led to the erosion of the regulated type of capitalism that came to be in place after World War II, and paved the way to a Neoliberal Globalisation. Deep structural institutional changes especially in the field of financial markets, labour markets and the international economy became the basis for a liberal type of capitalism which included financial markets in a dominant role. The new neoliberal model fundamentally changed the conditions for all macroeconomic policies. In this book, these macroeconomic policy regimes are discussed on
