Sommario/riassunto	This book presents a selection of edited essays written by leading international scholars engaging with practicing intelligence, military,

and police officers and responding to their first-hand international security cooperation experiences. The resulting chapters provide original theoretical perspectives on evolving international security cooperation practices. Beginning with the premise that intelligence cooperation-domestically between agencies, internationally between states, and transnationally among states, sub-state and non-state actors-is essential in order to successfully cou

**Sommario/riassunto**

This book constitutes the refereed proceedings of the 9th International Conference on Combinatorics on Words, WORDS 2013, held in Turku,

Finland, in September 2013 under the auspices of the EATCS. The 20 revised full papers presented were carefully reviewed and selected from 43 initial submissions. The central topic of the conference is combinatorics on words (i.e. the study of finite and infinite sequence of symbols) from varying points of view, including their combinatorial, algebraic and algorithmic aspects, as well as their applications.
