Sommario/riassunto

This edited volume addresses the key issues of ethics, war and international relations in the post-9/11 world. There is a lively debate in contemporary international relations concerning the relationship between statist obligations to one's own political community and cosmopolitan duties to distant others. This volume contributes to this debate by investigating aspects of the ethics of national military and security and intelligence policies in the post-9/11 environment. The discursive transformation of national militaries into 'forces for good' became normalized as the Cold Wa
