Sommario/riassunto

This is the first book to provide readers with the skills to assess development potential from a holistic standpoint. Until now, architectural books on conservation matters have focused on preservation at a strategic level and restoration at a technical level. This book offers the architect, developer or planner the rules and tools needed to gauge development prospects in an objective and comprehensive manner. Written by an expert in the field it provides the reader with:the latest legislation relating to heritage in the UKinsight into local plan
