## Sommario/riassunto

Growing Up with Technology explores the role of technology in the everyday lives of three- and four-year-old children, presenting the implications for the children's continuing learning and development. Children are growing up in a world where the internet, mobile phones and other forms of digital interaction are features of daily life. The authors have carefully observed children's experiences at home and analysed the perspectives of parents, practitioners and the children themselves. This has enabled them to provide a nuanced account of the different ways in which t
