Sommario/riassunto

The inherent mobility of tourists and consequent relative ephemerality of contact between the visitor and the visited tourism phenomenon have specific characteristics that challenge the usual fieldwork practices of the social and physical sciences. Such conditions create specific concerns for the tourism researcher in terms of their positionality, relationality, accessibility, ethics, reflexivity, and methodological appropriateness. Fieldwork in Tourism is the first book to focus on this extremely significant component of contemporary tourist research and provides hands on ap
