Sommario/riassunto	This lively book focuses on how different Jewish, Muslim, and Christian communities engage with new media. Rather than simply reject or accept new media, religious communities negotiate complex relationships with these technologies in light of their history and

beliefs. Heidi Campbell suggests a method for studying these processes she calls the ""religious-social shaping of technology"" and students are asked to consider four key areas: religious tradition and history; contemporary community values and priorities; negotiation and innovating technology in light of the community; communal discou

Early Dynastic and Old Babylonian Lists of Fish and Birds; IX. Sumerian Bird Names; Bibliography; List of color illustrations; Plates; Index of SumerianWords
Sommario/riassunto	This book uses insights from religious studies, literary theory, and the history of science for understanding the Sumerian composition Nanše and the Birds in the context of the Old Babylonian scribal school. The discussions of Babylonian religion, literature, and scholarship focus on

the usefulness and relevance of these modern concepts for categorizing the ancient text. The volume presents the first critical edition of *Nanše* and the *Birds*, as well as editions of the hymn *Nanše B* and all third millennium and Old Babylonian lexical lists of birds. It includes 37 plates with photographs and line drawings, including many previously unpublished tablets. The final chapter discusses the identity and orthography of all Sumerian bird names in literary, administrative and lexical texts.
