## Sommario/riassunto

This book examines entrepreneurship from three interrelated perspectives. Firstly, it links entrepreneurship to innovation and to the generation, transformation and use of knowledge. Secondly, it inserts entrepreneurship in innovation systems of various types- national, sectoral and local. Thirdly, it views entrepreneurship not as a single event but as a process that evolves in time, from the pre-entry experience, to the entrepreneurial act, to the evolution of the entrepreneur and the new company. With chapters from a range of international contrib

## Sommario/riassunto

The book discusses leading issues in Islamic economics and finance that continue to remain in a fluid, non-consensual state in the profession. It examines the nature and significance of Islamic economics. The book deals with the mainstream topics including growth, environment, distributive justice, monetary policy, risk treatment, methodology and Basel Accords to rehabilitate them for the Islamic discipline within the framework of scarcity, self-interest and gain maximization. Further, it explores the role of the state in directing the economy toward achieving Islamic goals of development and welfare. Zubair Hasan is an Indian economist. His teaching research and consultancy work spans over 58 years. During this period, he worked at the University of Delhi, Basra University of Iraq, international Islamic University of Malaysia and INCEIF, the Global University of Islamic finance, Kuala Lumpur. During this period he won several academic awards; the main ones being the Islamic Development bank's coveted Prize in Islamic economics (2009) and the OIC Comsec Academic Award 2014. During his long academic career Prof. Hasan published eight books and wrote over 125 working papers and articles in the area of Islamic economics and finance.
