Nota di contenuto	Cover; Contents; Illustrations; Abbreviations; Acknowledgements; List of Contributors; Introduction; A-Z Entries; Cremation Statistics; A Chronology of Cremation; Cremation Society Archive Sources; Select Bibliography; Index
Sommario/riassunto	The Encyclopedia of Cremation is the first major reference resource focused on cremation. Spanning many world cultures it documents regional histories, ideological movements and leading individuals that fostered cremation while also presenting cremation as a universal practice. This work is also an essential sourcebook for students on the growing number of death-studies courses and wider studies in religion, anthropology or sociology.
