University programs that enable diverse career choices of young scientists; Chapter 7. Science and technology entrepreneurship for greater societal benefit: Ideas for curricular innovation; Chapter 8. Navigating the issues of multidisciplinary student teams serving university spin-offs

Sommario/riassunto

This volume addresses the challenges that can arise when individuals from technical, business, and legal environments must converge on the goal of commercialization. Specifically, it brings together studies from organizational behavior, marketing, economic, and sociological perspectives on commercialization of university technologies.
